Professional Summary

Full Stack Developer with hands-on experience in developing scalable web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. Proficient in JavaScript, REST APIs, JWT Authentication, and responsive web development, with a strong foundation in Data Structures, OOP, and database management.

Education

SEA College of Engineering and Technology
B.E. in Computer Science Engineering (CGPA: 8.2/10)

Bangalore, India
2022 – 2026

Experience

Unified Mentor Pvt Ltd
Software Developer Intern

Remote-4 Months

- Developed responsive web applications using **React.js, JavaScript, HTML5, CSS3**, delivering interactive and user-friendly interfaces.
- Built reusable React components and implemented efficient state management for dynamic UI rendering.
- Integrated **REST APIs** with frontend applications to fetch, display, and manage application data seamlessly.
- Collaborated with backend developers and designers to create responsive, cross-browser compatible web applications.
- Used **Git/GitHub** for version control, debugging, testing, and maintaining clean, reusable code.

Projects

Stock Trading Platform

Personal Project

ReactJS, NodeJS, ExpressJS, MongoDB

2026

- Developed a full-stack stock trading platform inspired by Zerodha using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure user authentication, portfolio management, watchlists, and responsive dashboards for efficient investment tracking.
- Integrated REST APIs to display real-time stock market data and provide users with a seamless trading experience.
- Designed a responsive user interface using reusable React components and efficient state management.
- **GitHub:** github.com/Niranjan-640/StockTrading-Platform

NXT Watch

Personal Project

ReactJS, NodeJS, ExpressJS, MongoDB

2026

- Developed a responsive YouTube clone with secure authentication, video browsing, trending videos, gaming videos, and saved videos functionality.
- Implemented protected routes using JWT authentication and maintained user sessions securely.
- Integrated REST APIs to fetch and display real-time video content with search and category filtering.
- Built features including dark/light theme switching, video details page, saved videos, and responsive layouts using React Context API.
- **GitHub:** github.com/Niranjan-640/NXTWatch

Skills

Programming Languages: Python, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman, npm, Vercel

Core CS: Object-Oriented Programming, Operating Systems, Computer Networks, Data Structures & Algorithms

Certifications

- Unified Mentor Virtual Internship – **Unified Mentor Pvt Ltd**
- Full Stack Development Completion Certification – **NxtWave**
